Script **LUCA BLENGINO**

Art **NESSKAIN**

Wiped off the surface of the Earth by mechanical monsters who have come from nowhere, human beings will now owe their survival to the worst criminals ...

It is 2100. When the last pilot who is compatible with a Robot Unit is killed in combat, the Council of Twelve Cities must make a hard choice: whether to succumb to the S-Cats, these half-organic half-mechanical creatures who destroyed humanity 25 years ago, forcing the few survivors to go underground ... or to call on the Black List, trusting the most powerful and devastating machines ever built – to a crew of dangerous psychopaths ...

LUCA BLENGINO PUBLISHED *Le Casse – Gold Rush*, *7 Survivants*, *L'Astrolabe de Glace*, AND ALSO WROTE ALL THE SCENARIOS FOR THE *7 Merveilles* SERIES. NESSKAIN DREW *Le Cercle*, AND IS BEING TALKED ABOUT ALL OVER THE WEB BECAUSE OF HIS INCREDIBLE IMAGES FOR THE *HARRY POTTER* COMICS.

Complete series in 3 volumes
